

## Bonterra Disbursements

### Connecting the world's givers to those who can benefit most.

Bonterra Corporate Social Responsibility's Disbursements solution allows you to seamlessly manage your disbursement processes and procedures, as part of a comprehensive solution that coordinates all of your philanthropic activities. Access your funds faster, free more dollars for your causes, and generate bigger bottom-dollar impact.

#### Cut administrative costs.

With Bonterra Disbursements, you'll no longer have to create payable accounts for nonprofit organizations, accept and track employee donations, account for matching gifts, cut checks, or process tax receipts. A single tax receipt and reconciliation reports will dramatically reduce your internal costs.

#### Offload legal risk.

Bonterra Disbursements is a donor-advised fund (DAF) that vets charitable organizations to protect against fraud. The fund assumes legal liability for violation of anti-terrorism legislation such as the Patriot Act, allowing you to offload legal risk.

#### Make funds flow predictable.

Disbursements are typically tied to your funds flow and occur at monthly or quarterly intervals, making it difficult to foresee costs and budget accordingly. Bonterra Disbursements enables regular payments and ties fees to the scope of your programs, allowing you to expand your efforts and confidently predict costs.

#### Free more funds for nonprofit organizations.

Bonterra Disbursements handles the administrative overhead for both you and the nonprofits for a lower funds transfer fee and a per-transaction cap. As a result, you'll make more of your philanthropy dollars available to your nonprofit partners, ultimately allowing them to deliver maximum impact. Make more of your philanthropy dollars available to the NPOs to devote to your causes.

#### Outsource nonprofit organizations support.

Bonterra Disbursements handles the entire support process, including answering any questions that nonprofits may have regarding your donation.

#### Accelerate tax benefits.

Not only is Bonterra Disbursements a DAF, but it is also a verified 501(c)(3) organization, which allows you to realize tax benefits at the time of funding.
