

CASE STUDY

Driving ROI: A proven case management software solution in a large human services nonprofit

A large human services nonprofit had a pressing need to develop client insights for funder reports.

CHALLENGE

This large human services nonprofit was struggling with information. They did not have detailed notes on their 30,000 clients, and it was difficult to report on or query their current data. They needed a cost-effective solution to provide a better picture of their services and clients.

SOLUTION

Bonterra Program Management (formerly Social Solutions) provided an easy-to-use system that allowed them to categorize their services, case notes and create customized reports to understand their data. The program was so successful that it has even expanded into other areas within the nonprofit expanded into other areas within the nonprofit, expanding its services.

We wanted to be able to capture more detailed information.
And we are a nonprofit, and the price point makes a difference—we needed a robust system at a lower cost."

RESULTS

This Bonterra Program Management client, composed of 10 field managers and 765 case managers who serve approximately 30,000 people per year, achieved the following:

Key benefits of Bonterra Program Management to this large human services nonprofit:

10% reduction

in time spent on data capture.

The organization was able to save **\$671,707** in case manager time in one year.

I would say we are at least 10% more efficient in data entry in the last few years, but it's probably more if you compared it to our older system from 10 years ago."

20% reduction

in time spent on data integrity.

The organization was able to capture **\$1,343,415** in case manager productivity in the first year.

Parts of our organization were using manual systems like Google Docs to ensure data was entered correctly.

The standardization of data has made it a lot easier to look at program management."

30% reduction

in time spent on reporting.

The organization was able to save \$13,171 in case manager time the first year.

In our old system, when we tried to get an idea of how many people were served in a particular program, we would have to go office to office. Now we have all that data in one place."

1% protection

of funding based on better performance reporting.

The organization protected at least **\$1.92M** of their funding in the first year.

We get requests all the time from funders on how many people we are serving and their outcomes. The Bonterra solution was built to be able to track those services so that when a funder asks, we can show them all the information quickly."

Final return on investment

This large human services nonprofit was able to save about 44 hours in productivity per user in just the first year of implementing the Bonterra Program Management solution. With an initial investment of \$518,460, they experienced a positive return in 3.2 months and a 3-year ROI of 476%, with annual benefits exceeding \$1.9M.

476% return on investment after three years.

3.2 months to pay back initial investment.

222 additional people

can be served each year from productivity savings.
